### Question: 155

Your company has just acquired another company and you are responsible for setting up and configuring the users and stations. There are 35 users and Polycom IP phones that require setup and configuration.

What Interaction Administrator tool is designed for quickly creating the managed IP stations?

- A. Manually create each phone in the Managed IP Phones container.
- B. Use the Managed IP Phone Assistant to import a .csv list of the 35 IP phones to be created.
- C. Manually create all of the phones in the Stations container.
- D. Use the import wizard in the Stations container to import the phones from a .csv list.

**Answer: B**

### Question: 156

What statement is true regarding this user?

The screenshot shows the 'Microsoft Lync Settings' dialog box. The 'Location' dropdown is set to '<Default Location>'. The 'Time Zone' dropdown is set to '(UTC-05:00) Eastern Time (US & Canada)', and the 'Use Location Time Zone' checkbox is checked. The 'User Address' and 'Line URI' fields are empty. The 'Lookup Settings' button is visible. The 'User Type' dropdown is set to 'Enterprise Voice'. The 'Enable Presence Synchronization' checkbox is unchecked. The 'Current Status' dropdown is set to 'Available'. The 'Home Site' dropdown is set to '1 (SITE11F)'. The 'Current Site' dropdown is set to '<Not Set>'. At the bottom, there are navigation buttons (back, forward), a 'Confirm auto-save' checkbox (checked), and 'OK', 'Cancel', and 'Apply' buttons.

- A. If this user is not logged in, he will not receive calls at his workstation because his default workstation is not defined.
- B. The user cannot receive emails because his default workstation is not defined.
- C. The user must enter his IC password to log on to the interaction Client because his default workstation is not defined.
- D. The user will not be active until the default workstation is defined.

**Answer: B**

### Question: 157

You are the supervisor of a contact center that uses chat, email, and phone calls to communicate with your customers. You want to improve the time required for the initial introductory chat and other common chat topics.

What would you do to improve your agents' efficiency when working with chat messages?

- A. Use Response Management libraries to create an initial chat welcome message and other chat messages and links for common questions.
- B. Create text messages and send them to each agent so they can copy and paste them when needed.
- C. Store a pre-created message as a whisper tone, for chats, that will be sent automatically to anyone communicating via chat.
- D. Have each agent copy and paste their initial chat message into a text file so they can access it again later.

**Answer: A**

### Question: 158

Under what circumstances is it useful to create a Client Button?

- A. To make a custom button available from the Interaction Client/Desktop to make it easy for call center agents to access an application when they are on a customer call.
- B. When you want to make a custom button for agents to quickly open their Interaction Client application when they arrive at work.
- C. When you have created a unique interface using an API and want to add a custom Pickup button to it.
- D. You want your customers to be able to phone you by pressing a custom button on a web page.

**Answer: A**

### Question: 159

You are configuring the Default User for your company and want to assign Emergency and Local phone number classifications for everyone.

Where would you make this assignment?

- A. Under Access Control on the Security tab for the Default User.
- B. Under Security Rights on the Security tab for the Default User.
- C. Under Administrator Access on the Security tab for the Default User.
- D. Under Manage Classifications in the Phone Number configuration.
- E. Under Dial Plan in the Phone Number configuration.

**Answer: A**

### Question: 160

What security property page would you choose to configure custom Client Button display, permit specific phone number Classifications, and select Queue Views accessible through Interaction Supervisor?

- A. Administrator Access
- B. Access Control

- C. Security Rights
- D. Master Administrator

**Answer: B**

### **Question: 161**

You have configured your default profile and default schedule to have the functionality that you wish callers to hear when they dial in during regular business hours. Now you want to assign your main number to the default profile.

How would you assign the main number to the default profile?

- A. You can't assign a number to the default profile. You must create a custom profile and assign the main number to that.
- B. Assign the main number in the Incoming Call Selection area of the Default Profile property window.
- C. Check "Use this profile to process incoming calls with any of the following DNIS values", then enter the number into the text box.
- D. Check "Use this profile to process incoming calls with any of the following ANI values", then enter the number into the text box.

**Answer: A**

### **Question: 162**

Where must you create new stations for them to be eligible for auto-provisioning?

- A. INN IP phone configuration utility
- B. INN TFTP Server
- C. Managed IP Phones container
- D. Stations container

**Answer: C**

### **Question: 163**

All of the following are ways that the Interaction Client or Interaction Desktop can be configured to alert you when you have a new incoming interaction, except:

- A. Your telephone rings.
- B. You receive a text message.
- C. Your computer plays a .wav file through the speakers.
- D. The Interaction .NET Client receives focus.
- E. A Call Information window appears.

**Answer: D**

### **Question: 164**

Agents in your contact center are complaining that they do not have time to complete their after call work before a new call arrives.

How can you use CIC features to address this problem?

- A. Assign a wrap-up status to the workgroups in Interaction Administrator. Assign an appropriate amount of time for the agents to complete their after call work.
- B. Assign a wrap-up code to the agents. Have them select the Wrap-up code that will put them in an unavailable status.
- C. CIC does not have a feature to address this problem. You must train the agents to change their status to Do Not Disturb when they finish a phone call. When they finish the after call work, have them change their status back to Available.
- D. CIC does not have built-in features to address this problem. You must use interaction Designer and write a custom Handler

**Answer: A**

### **Question: 165**

You are configuring an email schedule in Interaction Attendant.

How do you configure the system so that Interaction Attendant is monitoring the correct mailboxes?

- A. Configure the monitored mailboxes in Interaction Administrator and select them in the E-mail Profile in Interaction Attendant.
- B. Enter the mailbox addresses in the Mailboxes to Monitor text box in the E-mail Profile in Interaction Attendant.
- C. Select the mailbox from the drop-down that lists all the system mailboxes in Interaction Attendant.
- D. Select the mailbox in the Default Schedule for the selected E-mail Profile.

**Answer: A**

### **Question: 166**

When creating non-managed stations, what must be created so that port 5060 is used for the receive port?

- A. Registration or contact line
- B. Registration group
- C. Dial group
- D. Default station setting

**Answer: A**

### **Question: 167**

What is a View in Interaction Center Business Manager?

- A. Views are the windows that provide data, such as agent and workgroup statistics, historical reporting data, and system information.
- B. Views provide a way to manipulate the configuration of agents and workgroups.
- C. Views contain the system and custom workspaces.
- D. Views are only used to set alerts within Interaction Center Business Manager.

**Answer: A**

### **Question: 168**

You have a group of remote agents who all require the same set of user permissions within IC.

In the image below, what is the recommended container for configuring user rights for the remote agents.

- A. Users
- B. Schedules
- C. Lines
- D. Groups
- E. User
- F. Roles
- G. Default User
- H. Workgroups
- I. Skills
- J. System Parameters

**Answer: G**

### Question: 169

- A. 8089
- B. 8060
- C. 8061
- D. 8088

**Answer: D**

# SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

*Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:*

**Actual Exam Questions:** *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

**Exam Dumps:** *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

**Practice Tests:** *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

**Guaranteed Success:** *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

**Updated Content:** *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

**Technical Support:** *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
